

ICPC Asia West Continent Championship 07-08 March 2026

Important Instructions

- You can use any browser, Chrome/firefox.
- Print the codes by saving the file and using the command `printfile filename.file`. Printouts given directly will not be handed over to you.
- Refer time always from the CodeChef contest page only.
- Refer to each problem statement for the time limits of each problem.
- The contest URL will be saved on the desktop as a shortcut for **Practise** and **Main** contests.
- Verify that your institute name and team name are the desktop background.

Software installed on machines

- CLion
- Pycharm
- IDEA
- Eclipse
- Codeblocks
- VS Code
- Vim
- Geany
- Emacs
- Sublime Text
- GVim

Extensions installed: Language Extensions in VSCode only. Installation of any other extension is not permitted.

Compilers on local machines.

SNo	Language	Compiler Version	Recommended Commands To Compile	Time Limit Multiplier
1	C	gcc 11.4.0	<code>gcc -x c -g -O2 -std=gnu11 -static \${files} -lm</code>	
2	C++	gcc 13.1.0	<code>g++ -x c++ -g -O2 -std=gnu++20 -static \${files}</code>	
3	Java	openjdk 21.0.5	<code>javac -encoding UTF-8 -sourcepath . -d . \${files}</code>	2x
4	Python	Python 3.11.11*		5x
5	Pypy3	Pypy3 7.3.9	<code>pypy3 -m py_compile \${files}</code>	2x
6	Kotlin	Kotlin version 1.9.21	<code>kotlinc -d . \${files}</code>	2x

*Python 3.10 is the default version. Use python3.11 to use python 3.11 for running.

ICPC Asia West Continent Championship 07-08 March 2026

ICPC Scoring System

Teams are ranked by using the following parameters.

- Score
 - Number of problems solved.
 - Higher is better.
- Penalty
 - In case of a tie, the penalty is considered.
 - Penalty is the sum of the times at which each problem was solved.
 - For each incorrect submission, a penalty of 20 minutes is added.
 - Submissions with compile errors are not considered for a penalty.
 - Note that only problems that are solved are considered for calculating the penalty.
 - Any extra submissions for a problem after it is solved are ignored.
 - Lower is better.

Other Instructions

- Submissions
 - To view your previous submissions, go to the Submissions tab (next to the problem statement) and click the pencil icon. The selected submission will open in the IDE. Please note that this action will replace the current code in the IDE.
- Other
 - The ranklist is frozen in the last 60 minutes, and final ranks will be revealed in the closing ceremony.
 - If you need to log out of your CodeChef account, click on the Logout button on the desktop
 - Please ensure that all templates are typed tomorrow morning before the contest. All systems will be reset tonight, so any work done beforehand will be cleared.
